Relevant Projects

Some self-projects I've worked on include :-

- 1) Anime website (HTML, CSS, JS) which shows the collection of existing animes with dark mode.
- 2) Yoghurt selling website (HTML, CSS, JS) an e-commerce frontend template.
- 3) Book's selling website (HTML, CSS, JS, PHP, SQL) which contains the books, login feature, admin page, etc.
- 4) Weather app (React, Weather API) which syncs the weather data from across the globe according to the input.

Nickfolio (my portfolio) website

Nickfolio is a dynamically animated modern website which possesses all my professional details and the projects I had done. Here I used Vite-Reactjs, Framer Motion, Tailwind framework.

Mega Project

Graffiti - A Design hub website (M-E-R-N Stack) which comprise of following stuffs out of many features :-

- Highly responsive
- Dark/Light mode
- Login/Register
- Admin page with visualized data
- Pagination
- Upload your design
- Like / Bookmark / Report / Commenting system
- Downloading and Profile update
- Searching and sorting
- Managing sessions
